A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountants' Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants, and the standards applicable to review engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of the Sarepta Waterworks District of Webster Parish, and to meet our ethical responsibilities in accordance with the relevant ethical requirements related to our review.

Accountants' Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Other Matter Paragraphs

Supplementary Information

The accompanying Schedule of Compensation Paid Board Members and Schedule of Compensation, Benefits, and Other Payments to Agency Head are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information is the representation of management. We have reviewed the information, and based on our review, we are not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. We have not audited the supplementary information and, accordingly, do not express an opinion on such information.

Required Supplementary Information

Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Notes to the Financial Statements

INTRODUCTION

The Sarepta Waterworks District of Webster Parish was created under Revised Statutes 33:3811, by the Webster Parish Police Jury, by Ordinance No. 502, on September 2, 1958. As a result, the District is a component unit of the Webster Parish Police Jury, which has the authority to appoint all members of the Board of Waterworks Commissioners.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Sarepta Waterworks District of Webster Parish have been prepared in conformity with accounting principles accepted in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the proprietary fund financial statements to the extent that those standards do not conflict with or contradict the guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance. The significant accounting policies used by the District are discussed below.

A. Reporting Entity

The District is a component unit of the Webster Parish Police Jury, the financial reporting entity. The Police Jury is financially accountable for the District because it appoints a voting majority of the board and has the ability to impose its will on them.

The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Police Jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

The Utility Fund is used to account for water service operations that are financed and operated in a manner similar to private business enterprise. The intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where the governing body has decided the periodic determination of revenues earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

B. Basic Financial Statements

The District's basic financial statements include fund financial statements (reporting the District's major funds.) The fund financial statements categorize primary activities as either governmental or business-type. The District has no governmental-type activities. All District activities are business-type. As such, the District's basic financial statements include only the financial statements required by enterprise funds.

Proprietary Fund Financial Statements

In the Statement of Net Position, business-type activities column is presented on a consolidated basis by column and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations.

The Statement of Revenues, Expenses, and Changes in Net Position reports both the gross and net cost of the district's function. The function is supported by program revenues, operating and capital grants.

Business-type activities are normally supported by fees and charges.

Major Proprietary Fund

Water Fund – This fund is used to account for the provision of water to residents of the District. This fund is used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

C. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Proprietary Funds – The financial statements of the proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility

Notes to the Financial Statements

requirements imposed by the provider have been met. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues, and expenses generally result from providing services and producing and delivering goods in connection with a proprietary funds are from charges for water services. Operating expenses for enterprise funds include the cost of sales services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Budgets and Budgetary Accounting

The Sarepta Waterworks District of Webster Parish is not required by state law to formally adopt a budget for proprietary funds and generally accepted accounting procedures do not require budgetary comparison of financial statements.

E. Cash and Investments

Cash includes amounts in demand deposits, interest-bearing demand deposits and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, or money market accounts with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Under state law, the District may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents.

The District has no investments as of June 30, 2022.

F. Inventories

Supplies used to repair water lines, pumps, and meters, are immaterial and are expensed when purchased.

G. Receivables

In the proprietary fund financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible receivables are based upon historical trends and the periodic aging of accounts receivable. The major receivable balance of the business-type activities is for utilities.

H. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items) are reported in the proprietary fund of the District. Capital assets are capitalized at historical cost. Donated assets are recorded as capital assets at their estimated acquisition value at the date of donation. The Sarepta Waterworks District of Webster Parish maintains a threshold level of \$2,500 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

	<u>Years</u>
Utility plant and additions	25-40
Water wells	40
Transportation equipment	5-10
Office equipment/improvements	5-8

I. Long-Term Obligations

In the proprietary fund, long-term debt and other long-term liabilities are reported as liabilities in the applicable business-type activities in the Statement of Net Position.

J. Compensated Absences

The District's vacation and sick policy provides for five days paid time off for employees in their first year of employment and ten days beginning in the second year of employment. No payment is made for unused vacation and sick time at the end of the fiscal year or upon leaving employment with the District.

K. Restricted Net Position

For the government-wide Statement of Net Position, net position is reported as restricted if either of the following conditions exists:

- Restrictions are externally imposed by creditors (such as debt convents), grantors, contributors, or laws or regulations of other governments;
- Restrictions are imposed by law through constitutional provision or enabling legislation.
- The primary restricted assets are related to utility meter deposits.

SAREPTA WATERWORKS DISTRICT OF WEBSTER PARISH
WEBSTER PARISH POLICE JURY
Sarepta, Louisiana
Notes to the Financial Statements
As of and for the year ended June 30, 2022

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

L. Pension Plan

The district does not participate in a pension plan and therefore has no unfunded liability.

M. Statement of Cash Flows

For purposes of the Statement of Cash Flows, the Sarepta Waterworks District of Webster Parish considers all highly liquid investments (including restricted assets) to be cash equivalents.

N. Bad Debt

Uncollectible amounts due for customer accounts are recognized as bad debts through the use of the direct write-off method at the time information becomes available which would indicate the uncollectibility of the particular receivable. Use of this method does not result in a material difference from the valuation method required by generally accepted accounting procedures.

O. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

2. CASH AND CASH EQUIVALENTS

These deposits are stated at cost, which approximates fair market. Under state law, these bank balances must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Also, both of the office substitutes had quit, and we asked the employee's immediate family to take payments for one day when the clerk was sick.
